Testimony of the Prof. of Obstetrics in Penn. Col-lege, Philadelphia.—DR. HUNTER'S MEDICAL MAN-UAL.—The author of this work unlike the majority of those works who advertise to cure the diseases of which it treats, is a graduate of one of the best Colleges in the United States. It affords me pleasure to recommend him to the unfortunate, or to the victim of inalpractice, as a successful and experienced practitioner, in whose honor and integrity

they may place the greatest confidence.

JOSEPH LONGSHORE, M. D. JOSEPH LONGSHORE, M. D.
FROM A. WOODWARD, M. D., OF PENN. UNIVERSITY, PRILADELPHIA.—It gives me pleasure to add my testimony to
the professional ability of the Author of the "Medical Manual." Numerous cases of Diseases of the Genital Organs,
some of them of long standing, have come under my notice, in which his skill has been manifest in restoring to perfect health, in some instances where the patient has been
considered beyond medical aid. In the treatment of Seminal Westness or disarrangement of the functions produced by self abuse or excess of venery. I do not know his supe-ior in the profession. I have been acquainted with the Author some thirty years, and doem it no more than justice to him, as well as a kindness to the unfortunate victim of early indiscretion, to recommend him as one, in whose pro-fessional skill and integrity, they may safely confide them-selves. ALF. WOODWARD, M. D. This is, without example on, the most comprehensive and intelligible work published on the class of diseases which in treats. Avoiding all technical terms, it addresses itself to the reason of its readers. It is free from all objection a ble matter, and no parent, however fasticious, e to placing it in the hands of his sons. The author has devoted many years to the treatment of the various complaints

reated of, and 'with too little breath to puff,' and 'too little presumption to impose,' be has offered to the world at
the merely nominal price of 25 cents, the fruits of some
twenty years most successful practice"—Heraid.

The constitutions of thousands who are raising families have been enfechied, if not broken down, and they do not know the cause or the cure. Anything that can be done so to enlighten and influence the public mind as to check and ultimately to remove this wide spread source of themselves a resident and confer the greatest blessing human wreichedness, would confer the greatest blessing next to the religion of Jesus Christ, on the present and coming generations. ROGERS LIVERWORT & TAR FOR THE COMPLETE CURE OF

Coughs, Colds, Influenzs, Asthma, Bronchitis, spitting of Blood, and all other Lung Complaints tending to CONSUMPTION. THE GREAT COUGH REMEDY!

READER! have you a Cough, which you are neglecting, under the idea that it is only a common cold, that it will soon "wear itself out?" Let a friend tell you, in all kindness, what will soon be the probable result.

In a short time, if you continue to neglect yourself, you will begin to feel a sense of tightness and oppression across the chest, accompanied with frequent sharp darting pains. Then a dry, backing Cough will set in, and when you raise anything it will be a thick and yellowish, or white frothy matter, streaked, perhaps, with blood. If you still take no will soon have Hectic Fever, Cold Chills, Night Sweats, Copions Expectoration, and then Great Prostration. If you stift neglect yourself, a few weeks or months will see you consign ed to the grave, leaving your friends to mourn how rapidly CONSUMPTION did its work, and hurried you away.— CONSUMPTION drd its work, and hurried you away.—
Friend! have you no cause to be alarmed? In the above sketch you may see as in a glass, how every case of Consumption progresses, with more or less rapidity, to a fatal termination. Of all the Thousands and Millions whom this great Destroyer has gathered to the tomb, every single case began with a Cold! If this had been attended to, all might have been well but, being neglected, under the fatal delusion that it would "wear itself," it transferred its deadly action to the archives of the Junes exciting there the formation to the substance of the Lungs, exciting there the formation of tubercles. Another, and another cold added fuel to the flame, until these tubercles began to soften and suppurate eaving, by their ulceration, great cavities in the Lungs. In the latter or worst stage, this medicine will oftentimes arrest the disease, or check its progress, and will always make the patient more comfortable, and prolong his life, and is therefore worthy of a trial,—but in its incipient or forming periods, Consumption is as curable as any other disease, and "Dr. Rogers' Syrup of Liverworth, Tar, and Canchalagua," if taken at this time, will cure it 120" AS SURELY AS IT IS TAKEN! 251 This is strong language, but we can refer you to numberless living witnesses to prove that it is TRUE. For centuries, Medical science has been ran-acking the vegetable and mineral kingdoms, to search of something that ahould restore the lost or decaying energies of the nervous and musicular systems, without the drawback of subsequent prostration, which all stimulatus, tonics, and narcotics had heretofore entailed. That something has been found. It is a vegetable production, brought from the sterile descris of Arab a the Stony, by the celebrated Professor M. To persons of feeble muscular frame, or deficient in vital power, it is recommended as the only means of communicating that energy which is necessary to the proper enjoyment of all the natural appetities, as well as the higher mental attributes. He beneficial effects are not confined to either ax or to any age. The feeble girl, the alling wife, the listless, ensevated youth, the over worn man of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of a single organ, will all find immediate and permanent relief from the use of this incomparable renevator.—To those whe have a predisposition to paralysist will prove a complete and unfailing safeguard against that terrible matady. There are many, perhaps, who have so trified with their constitutions, that they think themselves beyond the reach of medicine. Let not even these despair. The fill and sells with disease as it exists, without reference to causes, and will not only remove the disorder itself, but

deals with disease as it exists, without reference to causes, and will not only remove the disorder itself, but Rebuild the Broken Constitution.

The derangements of the system, leading to nervous diseases, and the forms of nervous diease itself, are so numerous that it would require a column to caumerate the maladies for which this preparation is a specific. A few, however, may be caumerated, viz: neuratic, tie delereaux, hendache, incipient paralysis, hysteria, palpitation of the heart, splund affections; muscular debility, iremors, flatalence, a pricking seasation in the feeth, numbers, torpidity of the liver, mental depression, weakness of the will, indisposition to move, futurees after exercise, broken sleep and terrifying dreams, inability to remain in one plane or position, weakness of the procreative organs, sexual incomments of the procreative organs, sexual incomments of the procreative organs, asked in the feeth which is the procreative organs, asked incomments of the procreative organs, asked incomments of the procreative organs, asked in the feeth of the fee lency, melancholy, monomania, mor albus, sinking at the stomach, female irregularities, a chronic tendency to miscarriage, emaciation, and all complaints growing out of a free indulgence of the passions, and all barrenness that does not proceed from organic causes beyond the reach of medicine. Whenever the organs to be acted upon are free from mal-formation or strictural diseases it is averred that

cy, irregularity with unform and natural activity, and this not only without hazard of reaction, but with a happy effect on the general erganization. If P Bear in mind that all maladies, wherever they bogin, finish with the nervous system, and that the parallastion of the nervos of motion and sensation is physical death. Bear is mind also, that for every kind of nervous disease the Klizir Cordial is the only reliable preparation known.

Cure of Nervous Diseases. No language can convey an adequate idea of the immediate and almost miraculous change which is occasions in the diseased, debilitated and shattered nervous system, whether broken down by excess, weak by nature, or impaired by sinkness, the unstrang and relaxed organization is at once praced re-vivided and built up. The mental and physical symions of nervous disease vanish together under its influence. Nor is the effect temporary; on the contrary, the relief is permanent, for the cordial properties of the medicine reach the constitution itseed, and restire it to its normal condition.—Well may the preparation be called the Well may the preparation be called the Medicinal Wonder.

of the ulneteenth century. It is, as the first scientific man in the world would have admitted, that mirracle of medicine heretofore supposed to have no existance. A Stimulant that Entails No Re-Action. A Schmidt that Entuits No Re-Action.

Its force is never expanded, as is the case with optum, alcoholic preparations, and all other excitants. The effect of
these is brief, and it may well be said of him who takes them.

"The last state of that man is were than the first." But the
Hixir is an exhiberant without a single drawback—safe in its
operation, perpetual in its happy to fluence upon the nerves,
the mind, and the entire organization; it will also remove dopressions, excitement, a tendency to blush, sleeplessness,
disting of society, incapacity for study or house.

A Great Medicine for Femnles,

A Great Medicine for Femnles,
The unparalleled effects of this great restorative, in all complaints incident to females, mark a new era in the annals of medicine. Thousands of attendants have been trivented. Thousands of invigorants concected—all purporting to be specified in the various diseases and derangements to which the delicate formation of woman render her stable.—The result has herstofore been uniform. These nostrums have indeed imparted a momentary vivacity to the nervous system, a transfent and delusive vigor to the muscles; but this firsh of relief has been succeeded by a depression and prostration greater than before, and the end has too often been uniterly to paraly ze the recaperative power of the nerves and the vital organization, and anally to destroy the unasper patient. But it is a presented as a phenomena in the unateria medica hitherto

WEAKNESS, in Male or Female, is quickly cured, and the debilitated and emaciated made strong, vigorous and healthy. Impotence and Nocturnal Emissions in men, or diseases of either one or more of the generative organs, are quickly removed, and the body restored to a healthy and a und condition.

LOW SPIRITS—NERVOUSNESS.—In women, the numerous complaints and ailments which cast such gioom over their spirits, a few doses of the Renovating Resolvent will quickly remove, and the most nervous, Gloomy and deferressed, feel healthy, strong and happy.

AFFLICTED READ! PHILADELPHIA MEDICAL HOUSE.—Established 15 years ago by DR KINKELIN. The oldest, surest and best hand to cure all forms of secret diseases of the skin, and solitary habits of youth, is DR. KINKELIN, N. W. corner. solitary habits of youth, is DR. KINKELIN, N. W. corner of Third and Union streets, between Spruce and Pine, one and a half squares from the Exchange, Philadelphia.

Take Particular Notice.—There is a habit which boysteach each other at the academy or college—a habit induged in when by themselves, in solitude, growing up with the boy to manhood, and which, if not abandoned in due time, not only begrets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious and devastating affections. Few of those who indulge in this permicious practice are aware of the consequences, until they find the nervous system is shattered, feel strange and unsecontiable feelings, vague fears in the mind. The individual becomes feathe, he is mable to labor with accustomed vigor, or to apply his mind to study, his step is tardy and weak, he is dull and irresolute, the countenance is dewneast, the eves without matural lustre, shamefacedness is apparent.—These are symptoms which should awarken the attention of these animizarly afficients.

These are symptoms which should declare to discover by these similarly affected.

If the victim be conscious of the cause of his decay, and having relinquished the odious practice, he suffers under those terrible nocturnal emissions, which weaken and shame him, producing mental and physical prostration. If he emancipate himself before the practice has done its worst, and enter marrimony, his marriage is unfruitful, and his senses tell him that this is caused by his early follows.

The many think that will hur the secret to their own Too many think thay will hug the secret to their own hearis, and care themselves. Alast how often is this a fatal delusion, and how many a promising youth, who might have been an ornament to society, has faded from the earth!

Young Men!—Let no false modesty deter you from making your case known to one who, from education and re-spectability, can alone befriend you. He who places himself der DR. KINKELIN'S treatment, may religiously confide
